

# Web Application

## UML Deployment Diagram Example

An example of **web application** UML **deployment diagram**. Book club web application **artifact book\_club\_app.war** is deployed on Catalina Servlet 2.4 / JSP 2.0 Container which is part of Apache Tomcat 5.5 **web server**.

The **book\_club\_app.war** **artifact manifests** (embodies) OnlineOrders **component**. The artifact contains three other artifacts, one of which **manifests** UserServices **component**.

The Application Server «**device**» (computer server) has **communication path** to Database Server «device» (another server).

*An example of deployment diagram for J2EE web application.*

*Noticed a spelling error? Select the text using the mouse and press Ctrl + Enter.*

This document describes **UML 2.5** and is based on **OMG™ Unified Modeling Language™ (OMG UML®) 2.5** specification *[UML 2.5 FTF - Beta 1]*.

All UML diagrams were created in **Microsoft Visio** 2007-2016 using **UML 2.2 stencils**. You can send your comments and suggestions to [webmaster](mailto:webmaster@uml-diagrams.org) at [webmaster@uml-diagrams.org](mailto:webmaster@uml-diagrams.org).
