

# Online Library Public Access Catalog

## UML Use Case Diagram Examples

An **Online Public Access Catalog (OPAC)** is an e-Library website which is part of **Integrated Library System (ILS)**, also known as a **Library Management System (LMS)**, and managed by a library or group of libraries.

Patrons of the library can search library catalog online to locate various resources - books, periodicals, audio and visual materials, or other items under control of the library. Patrons may reserve or renew item, provide feedback, and manage their account.
